SUMMARY

B.Tech Computer Science and Engineering student with expertise in full-stack web development (MERN stack) and Data Structures & Algorithms. Proficient in React, Node.js, Express.js, and MongoDB with hands-on experience building production-grade projects integrating Hugging Face, Gemini, and Groq LLMs. Strong logical thinking and problem-solving ability with a focus on delivering clean, scalable, and impactful software solutions.

EDUCATION

Islamic University of Science and Technology

Anantnag, J&K, India

B.Tech in Computer Science and Engineering

2022 – Present (Expected 2026)

CGPA: 7.022 (up to 7th Semester)

Relevant Coursework: Web Development, Databases, Software Engineering, Data Structures & Algorithms

SKILLS

Languages	JavaScript (ES6+), Java, C, Object Oriented Programming
Frontend	React, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design
Backend	Node.js, Express.js, RESTful APIs, Socket.IO, JWT Authentication
Databases	MongoDB, Database Design, Schema Modeling
AI & APIs	Hugging Face, Gemini API, Groq, REST API Integration
Tools	Git, GitHub, VS Code, Postman
Concepts	Problem Solving, DSA, Software Development Lifecycle, Agile

PROJECTS

VivaCoach-AI

viva-coach-ai.vercel.app

React · Vite · Node.js · Express.js · MongoDB · JWT · Hugging Face · Gemini · Groq

- Built a multimodal AI interview coaching platform that analyzes spoken answers, facial expressions, and body language simultaneously using Hugging Face vision models and Gemini/Groq LLMs.
- Architected 6+ API route groups for full session lifecycle (auth, interviews, AI feedback, reports) with JWT authentication and a detailed performance report UI.

SmartSplit

React · Node.js · Express.js · MongoDB · Socket.IO · JWT · Tailwind CSS

- Developed a collaborative expense-tracking app with real-time group chat via Socket.IO, live presence indicators, and instant balance settlement between group members.
- Designed 15+ REST API endpoints covering expense creation, balance algorithms, and group settlements; secured with JWT authentication.

AI Note App

ai-note-app-iota.vercel.app

React · Tailwind CSS · JavaScript · REST API

- Created a smart note-taking app with AI-powered auto-summarization and tag suggestion, keeping 500+ notes organized without manual effort.
- Integrated external REST APIs for AI-driven content analysis and designed a fully responsive React interface with clean, intuitive UX.
